Instructions

^ COLLAPSE ^

1. Visit w3schools and go to the Java Tutorial section: <https://my-learning.w3schools.com/tutorial/java>
2. Complete the following readings
 1. Strings Lessons 5.1 - 5.4
 2. Methods Lessons 10.1-10.5
 3. Classes Lessons 11.1 - 11.6, 11.15, 11.21
 4. File Handling Lessons 12.1 - 12.4

Guide:

1. Make sure you're in the main branch locally (`git checkout main`) and `git pull origin main` any pending changes
2. Make a new branch per the recommended branch name below (`git checkout -b ...`)
3. Fill in the items in the worksheet below (save as often as necessary)
4. Once finished, export the worksheet
5. Add the output file to any location of your choice in your repository folder (i.e., a Module3 folder)
6. Check that git sees it via `git status`
7. If everything is good, continue to submit
8. Track the file(s) via `git add (name_of_file)`
9. Commit the changes via `git commit -m "some summary message"` (don't forget the commit message)
10. Push the changes to GitHub via `git push origin (the_branch_name)` (don't forget to refer to the proper branch)
11. Create a pull request from the homework related branch to main (i.e., `main <- "homework branch"`)

12. Open and complete the merge of the pull request (it should turn purple)
13. Locally checkout main and pull the latest changes (to prepare for future work)
14. Take the same output file and upload it to Canvas

Group: Reflection

Task #1: Reflect on the following topics

Sub Task #1: What concepts/topics were totally new to you?

⇒ Task Response Prompt

Mention specific concepts/topics

Response:

HashSet was completely new to me, my previous Java classes had not brought up the topic at all so I learned everything I know about it from these readings. File handling was mostly a new concept to me as well, however in my previous classes we briefly touched upon the concept.

Sub-Task

Task #1: Reflect on the following topics

Sub Task #2: What concepts/topics were you already familiar with?

⇒ Task Response Prompt

Mention specific concepts/topics

Response:

I was already familiar and comfortable with the concepts of Strings, methods and most of the concepts in the classes reading except for the HashSet.

Sub-Task

Group: Reflection

100%

Task #1: Reflect on the following topics

Sub Task #3: What topics do you still not feel confident about? If confident, explain why.

⇒ Task Response Prompt

At least a few reasonable sentences.

Response:

I still do not feel super confident in HashSet. I understand it as a concept and it makes sense to me but since I have not used it before I would need to practice its use before becoming confident in using it. Same goes for file reading however I feel like that is a more basic concept than HashSet.
